

# £4 Million Research Initiative

## 8 POSTS IN SKELETAL BIOLOGY AND DEGENERATIVE DISEASE

Resetting the THYRoid axis for prevention of AGE-related diseases and co-morbidities

**Imperial College  
London**

Duncan Bassett  
Graham Williams  
*Molecular Endocrinology Laboratory  
Department of Medicine*

- 2 Research Technician posts for up to 5 years  
[Research Technician 1](#)      [Research Technician 2](#)

Control of macrophage multi-nucleation in health and disease

**MRC**

Medical  
Research  
Council

**Imperial College  
London**

Jacques Behmoaras  
*Centre for Complement and  
Inflammation Research*

Duncan Bassett & Graham Williams  
*Molecular Endocrinology Laboratory*

- Post-doctoral Research Associate for up to 4 years  
[Research Associate](#)
- Research Technician for up to 4 years  
[Research Technician](#)

Cellular thyroid hormone availability: regulation of development and tissue repair, and pathogenesis of degenerative disease

**wellcome**trust  
Investigators

**Imperial College  
London**

Graham Williams  
Duncan Bassett  
*Molecular Endocrinology Laboratory  
Department of Medicine*

- 2 Post-doctoral Research Associate posts for up to 5 years
