

Laboratory for Vascular Translational Science
LVTS UMRS 1148

Laboratory for Vascular Translational Science, INSERM U1148 is seeking a highly motivated

Design engineer for a project on Tissue Engineering

Biomaterials for wound healing

The Laboratory for Vascular Translational Science (www.lvts.fr) in Paris offers a position of Research Engineer in the Team Biomedical Engineering (Teresa Simon-Yarza).

This is a 12 month position (starting from October 2025).

In this project, the wound healing properties of innovative biomaterials will be assessed *in vivo*

Application requirements are:

- Master's degree (or equivalent) in biology, biochemistry, pharmacy, biomedical engineering or comparable discipline
- A background in biomaterials sciences
- Hands-on experience in *ex vivo* and *in vivo* models of wound healing
- Experience on the evaluation of adhesive properties of biomaterials would be a plus

To apply, please send your CV and cover letter to teresa.simon-yarza@inserm.fr
